

EFFLORESCENCE OFF

TECHNICAL INFORMATION

Product Description:

A commercial grade acid cleaner designed to remove stubborn efflorescence. It also is very effective at removing rust, grout & hard water deposits. An ideal tradesman product

Features + Benefits:

- Extra heavy duty acidic cleaner
- Contains a combination of acids (does NOT contain Hydrochloric acid)
- Highly concentrated, dilutable up to 20 to 1
- Breaks down built up efflorescence & other mineral based materials
- Unifies the look of uneven areas

Where to use:

- Some natural stone surfaces such as: Granite, Sandstone, Quartz
- Terracotta, tessellated tiles
- Ceramic tiles, porcelain & grout joints
- Clay bricks & pavers
- Concrete & concrete pavers

Method of application:

1. Mix Efflorescence Off with clean water to the desired strength
2. Dampen the surface then apply the solution
3. Allow to stand for 5-10 minutes keeping surface wet with cleaner, than agitate surface vigorously with a nylon scouring pad or bristle brush. If concrete is being cleaned, do NOT leave Efflorescence Off on the pavers for more than 3-5 minutes. Efflorescence Off can damage colored pavers if left on too long to dwell.
4. Rinse well with clean water to remove detergent and soil. Rinsing with a pH Neutral Cleaner is recommended.

Available sizes:

4lt Bottle & 15lt Drums
