

SAFE STRIPPER

Technical Data Sheet

Product Description

A very effective safe to use acrylic floor stripper for the removal of surface/topical sealers like **Spirit Uni Seal**. It is water soluble with no offensive odours.

Features + Benefits

- Safe to use
- Excellent for removing paint & glues
- Does **NOT** contain Acids
- Non-flammable, no fumes
- Most effective when used in conjunction with **Spirit H.D.C**
- Strips **Spirit Uni Seal**

Where to use:

- All natural stone surfaces
- Ceramic Tiles & Porcelain Tiles
- Concrete & Clay pavers

Method of application:

1. Sweep the area to remove any loose debris
2. Apply the **Safe Stripper** neat from the container to the floor and allow it to sit/dwell for 15-30mins (do not start to scrub yet)
3. After the time has elapsed, check to see if the existing seal has softened (it will now feel tacky)
4. Now mix **Spirit H.D.C** at a dilution rate of 1 part **H.D.C** to 8 parts clean warm water
5. Scrub the floor with a nylon scouring pad to remove the old sealer
6. Remove the slurry and rinse the floor with clean water, then wait for it to dry to see if you have successfully removed all of the sealer.
7. If there is still sealer present, repeat the process until all the old sealer has been removed
8. A final rinse with **Spirit Neutral Cleaner** is recommended.

Available sizes

1lt, 4lt, 15lt Drums
