

## PORCELAIN MAINTENANCE GUIDE

### Maintenance:

The floor should be cleaned regularly with **Spirit Neutral Cleaner**. If the method of cleaning is mopping, it is very important that the mop water should be changed every 10-20 square metres to prevent the dirt being spread across the entire floor.

A wet vacuum is the ideal way to remove the dirty water.

**Please Note:** Spills should be cleaned up as soon as possible to reduce the risk of staining to your tile or the grout joints.

1. For general maintenance of the floor, use **Spirit Neutral Cleaner**.
2. For heavy built up areas, use **Spirit H.D.C.**

The following marks should be treated with the correct cleaning products...

- Tyre marks/scuff marks - **Spirit Porcelain Crème**
- Marker pens/crayon - **Spirit Porcelain Crème**
- Pencil marks - **Spirit Porcelain Crème**
- Wax - **Spirit Porcelain Crème**
- Soap scum - **Spirit Porcelain Crème**
- Dairy products - **Spirit Neutral Cleaner**
- Paint - **Spirit Safe Stripper and Spirit H.D.C.**
- Waterbased paint - **Spirit H.D.C.**
- Tea & coffee - **Spirit H.D.C.**
- Wine & Beer - **Spirit H.D.C.**
- Cooking oil - **Spirit H.D.C.**
- Grease and grime - **Spirit H.D.C.**
- Mould, mildew & algae - **Spirit Bright As**
- Bird droppings & leaf marks - **Spirit Bright As**
- Grout haze/cement residue - **Spirit Phosphoric Acid Cleaner**
- Rust marks - **Spirit Phosphoric Acid Cleaner**

\*For the best results...Spirit recommends to rinse with **Spirit Neutral Cleaner** (a pH neutral detergent) after cleaning with any of our other heavier cleaners listed above. A dilution rate of 20 parts water to 1 part **Spirit Neutral Cleaner** is required.

\*To keep your grout joints clean, talk to us about **Spirit Premium Aerosol Grout Sealer**.
