

EFFLORESCENCE OFF

Technical Data Sheet

Product Description

A commercial grade acid cleaner designed to remove stubborn efflorescence. It also is very effective at removing rust, grout & hard water deposits.

Features & Benefits

- Extra heavy duty acidic cleaner
- Highly concentrated, dilutable up to 20:1
- Contains a combination of acids (does **NOT** contain hydrochloric acid)
- Breaks down built up efflorescence & other mineral based materials

Where to use

- Some natural stone surfaces such as Granite & Sandstone
- Terracotta, Tessellated Tiles
- Ceramic Tiles, Porcelain Tiles & grout joints
- Concrete & Concrete Pavers

Where not to use

- Acid sensitive stones like travertine, marble or limestone

Method of application

1. Mix Efflorescence Off with clean water to the desired strength (see back of bottle for dilution rates)
2. Sweep or vacuum the area to remove any loose debris
3. Dampen the surface with clean water and then apply the solution
4. Allow to sit/dwell for 3-5 minutes keeping the surface wet with the cleaner. Don't let it dry (**Efflorescence Off** can damage coloured pavers if left to dwell on the surface for too long)
5. Scrub with a nylon scouring pad or firm bristle brush
6. Remove slurry and rinse with **Spirit Neutral Cleaner** to neutralise any residual acids

Available sizes

1ltr, 4ltr, 15ltr Drums
