

PHOSPHORIC ACID CLEANER

Technical Data Sheet

Product Description

A safe to use acid cleaner designed to remove grout residue for newly tiled surfaces. It also is very effective at removing rust, efflorescence & hard water deposits.

Features + Benefits

- Heavy duty acidic cleaner
- Highly concentrated with added detergents
- Breaks down grout haze and mortar residue
- Made from safe food grade acids
- Safer than hydrochloric acid, no fumes

Where to use

- Some natural stone surfaces such as Granite, Basalt & Sandstone
- Terracotta, Tessellated tiles
- Ceramic tiles, porcelain & grout joints
- Clay bricks & pavers

Method of application

1. Mix Phosphoric Acid cleaner with clean water to the desired strength (follow instructions on the back of the bottle carefully).
2. Wet the area to be cleaned first.
3. Allow to stand for 1-2 minutes keeping the surface wet with the cleaner.
4. Now scrub the surface vigorously with the appropriate grade nylon scouring pad or bristle brush.
5. Rinse well with **Neutral Cleaner** at a dilution rate of 20 parts clean water to 1 part **Neutral Cleaner** to neutralise any residual acid solution.

Available sizes

1ltr, 4ltr & 15ltr Drums
